

# President's Report

August 2025

CRA's August event at Motorsports Park Hastings was a huge success, exceeding our expectations in every way. Our club showed that we can travel, with huge volunteer attendance and a racer count within 10% of our BIR average. We saw close racing with multiple photo finishes.

Our stewards and volunteers quickly learned the workings of a new facility and put on a world-class event. We opened on time each day and maximized our time on track. Our racers got up to speed just as fast, throwing down seriously quick lap times. We licensed four new racers, including three Nebraska locals and one CRA VIP: the patriarch of the legendary Routh Racing crew. The pit party was also a hit, and our club came out in force to support the food trucks and the mobile bar.

Ultimately, Hastings was a new venue with new partners, but the same CRA excellence we have all come to expect. I would like to give a huge THANK YOU to everyone that made this event not only possible, but exceptional: our steward team, our volunteers, our racers, and our board of directors (including last year's, who set this event in motion). I also want to give a special shout-out to Rob Oliva, who spearheaded the effort and put in countless hours to make sure the event went off without a hitch.

It's hard to believe we have only one event left in the season. I hope to see everyone back at Brainerd on September 19–21 for some more great racing. We need to keep up the trend of high racer and volunteer turnout to finish the season strong and remain on track with respect to our 2025 budget goals.

Our next Membership Meeting is September 2. Please join us and circulate your proposed discussion topics in advance. I hope to see you there.

Finally, we are in need of more nominations for the Board of Directors, as well as a volunteer to take over as Chief of Trophies. Our all-volunteer club requires each of us to contribute in various ways. If you have any interest in running for the Board or serving as Chief of Trophies—or if you know someone who'd be a good fit for these roles—please e-mail us at [info@cra-mn.com](mailto:info@cra-mn.com).

# Worker Liasion

## Hello from Linds the Worker Liaison!

**volunteer: a person who freely offers to take part in an enterprise or undertake a task, performed to benefit the community or a particular cause without expecting compensation.**

Wow, what an amazing weekend we had at Motorsport Park Hastings! It was a huge learning experience for us as a club and I believe we are going to be better because of it. We had a great turnout of both racers and volunteers and it was fun to see so many people enjoying this new (to us) track. All of the CRA volunteers received a Hastings special edition CRA shirt so look for people wearing that at the September weekend. If you volunteered at Hastings and did not get your shirt, please email me at [workerliaison@cra-mn.com](mailto:workerliaison@cra-mn.com) and I'll make sure you get one.

Our September weekend is right around the corner and volunteer registration is open! Make sure to register to volunteer **BEFORE 8PM on WEDNESDAY, SEPTEMBER 17th** in order to be on the gate list. If you do not register by then, you will not be on the gate list and you will need to pay to get in.

<https://www.msreg.com/CRASeptember2025Volunteer>

One final reminder - Chiefs, please send me your crew's volunteer points from the August weekend if you have not done so already.

Thank you for volunteering and I'll see you in September!

# Lead of Trophies

**HELP  
NEEDED**

The Lead of Trophies plays a vital role in celebrating the achievements of CRA racers by coordinating all aspects of trophy planning, ordering, and distribution. This role manages the end-to-end trophy process, from data compilation and vendor coordination to final distribution at the year-end banquet and beyond. The ideal candidate will bring a passion for recognizing excellence, strong organizational skills, and a drive to continuously improve the process.

## **Trophy Planning & Coordination:**

- Collaborate with the Board of Directors and MSR Administrator to confirm ordering structures, podium categories, and recognition criteria.
- Compile race results and podium placements using Speedhive and Time & Scoring reports.
- Create and manage the bulk trophy order with the designated vendor, ensuring accuracy and timeliness.

## **Trophy Preparation:**

- Sort, label, and package trophies for distribution, ensuring each award is matched correctly to its recipient.
- Solicit endurance race photos and create printed plaque inserts for endurance podiums.
- Secure and organize number plates for the Top 10 Novice and Expert riders.

## **Distribution:**

- Coordinate and execute trophy distribution at the annual awards banquet.
- Work with the Board and Race Director to distribute remaining trophies post-banquet as needed.

## **Ideal Qualities & Requirements:**

- A genuine desire to honor and highlight the accomplishments of CRA racers.
- Passion for simplifying and innovating the trophy and recognition process.
- Strong spreadsheet, database, and data interpretation skills.
- High attention to detail with the ability to manage and organize bulk data and physical inventory.
- Comfort working independently with periodic coordination check-ins.

## **Time Commitment & Nature of Work:**

- The majority of the workload occurs during the off-season (October–January) and can be completed in focused, finite work sessions.
- Light touchpoints may occur mid-season for photo or data collection, but the heaviest lift is preparation for the banquet.

## **Looking to improve your lap times?**

**Over the 2022 season, Justin Miest of Nielsen Racing utilized the MICHELIN POWER PERFORMANCE tires to break two track records on both configurations of Brainerd International Raceway: the Donnybrook Course with a 1:38.514, and the Competition Course with a 1:34.163.**

**Without the incredible levels of grip that MICHELIN POWER PERFORMANCE tires provide, and the expert knowledge and experience that Trackside Labs offers, records like these would be nearly impossible to set.**

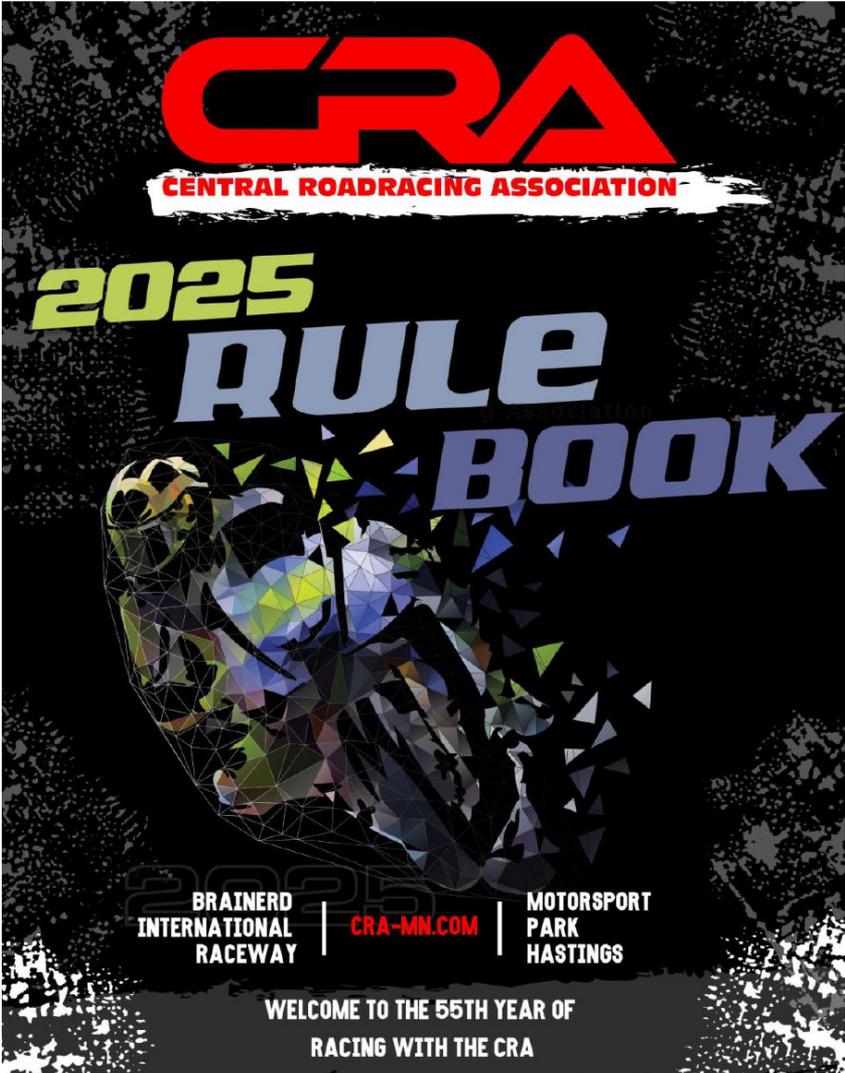

**Accelerate your program to the next level!**
