

President's Report

June 2025

Our June event turned out to be another great weekend of racing. After some rain on Friday, the weather held out, and we saw competitive racing and full grids. Our second Saturday night pit party of the season was another success.

We continue to be on pace with respect to our 2025 budget goals. We need to see continued high racer registrations and turnout through the season to meet our goals and keep the club in a strong financial position.

Shortages of corner workers continue to be an issue and result in opening delays. As a reminder, any racer who brings a corner worker that works a full Friday will get a free Friday practice the following weekend. Further, each racer that refers a corner worker who pre-registers and works a full day will get a free sprint race entry the following weekend.

We are again offering garage stalls in the Napa building (next to the classroom) in July on a first-come basis for \$100 for the weekend. Please purchase those through MSR. We are also offering discounted BIR gate passes on a first-come basis through MSR.

We will also be testing out BIR's new Flagtronics system on Saturday, July 5. The system should add additional visibility for on-track flagging and communications, but it is also an added expense. I will be interested to hear feedback from volunteers and racers about the system.

Pre-registration is now open for both racers and volunteers for our July event. Our next Membership Meeting is on July 1. Given the robust turnout in recent months, we will be soliciting discussion topics in advance of the meeting and circulating an agenda. I hope to see you there!

This role manages the end-to-end trophy process, from data compilation and vendor coordination to final distribution at the year-end banquet and beyond. The ideal candidate will bring a passion for recognizing excellence, strong organizational skills, and a drive to continuously improve the process.

Trophy Planning & Coordination:

- Collaborate with the Board of Directors and MSR Administrator to confirm ordering structures, podium categories, and recognition criteria.
- Compile race results and podium placements using Speedhive and Time & Scoring reports.
- Create and manage the bulk trophy order with the designated vendor, ensuring accuracy and timeliness.

Trophy Preparation:

- Sort, label, and package trophies for distribution, ensuring each award is matched correctly to its recipient.
- Solicit endurance race photos and create printed plaque inserts for endurance podiums.
- Secure and organize number plates for the Top 10 Novice and Expert riders.

Distribution:

- Coordinate and execute trophy distribution at the annual awards banquet.
- Work with the Board and Race Director to distribute remaining trophies post-banquet as needed.

Ideal Qualities & Requirements:

- A genuine desire to honor and highlight the accomplishments of CRA racers.
- Passion for simplifying and innovating the trophy and recognition process.
- Strong spreadsheet, database, and data interpretation skills.
- High attention to detail with the ability to manage and organize bulk data and physical inventory.
- Comfort working independently with periodic coordination check-ins.

Time Commitment & Nature of Work:

- The majority of the workload occurs during the off-season (October–January) and can be completed in focused, finite work sessions.
- Light touchpoints may occur mid-season for photo or data collection, but the heaviest lift is preparation for the banquet.

**TRACKSIDE
LABS**

Looking to improve your lap times?

Over the 2022 season, Justin Miest of Nielsen Racing utilized the MICHELIN POWER PERFORMANCE tires to break two track records on both configurations of Brainerd International Raceway: the Donnybrook Course with a 1:38.514, and the Competition Course with a 1:34.163.

Without the incredible levels of grip that MICHELIN POWER PERFORMANCE tires provide, and the expert knowledge and experience that Trackside Labs offers, records like these would be nearly impossible to set.
